SOURCE EVALUATIONS ARE DEFINITIVE. APPRAISAL OF CONTENT IS TENTATIVE.

25X1

1. An electric power plant is located at Rau Sadului, 20 kilometers south of Sibiu and 17 kilometers west of Talmaciu. The construction of the power plant, which was interrupted many times in 1952 and 1953, was resumed in the spring of 1954. Work is now being carried out at a rapid rate by the utilization of some thousand peasants of the region.
2. The material for the construction of this plant arrives by rail at the Talmaciu station where it is unloaded and transported to the construction site via a narrow gauge double-tracked line. There is a project to extend a branch of the main railroad from the Talmaciu station to the construction site.
3. Plans have been made to build an artificial lake about four kilometers west of Rau Sadului. This lake would encompass the village of Fundu Raului which is located about five kilometers to the south of Rau Sadului.
